Precision Metal Injection Molding (MIM) Components.

METALLURGY REIMAGINED.

PrintAlloy[®]

3D metal printing of prototype MIM components in days!

MIM

Our proven metal injection molding (MIM) technology.

ProtoMIM[®]

Real MIM components delivered in 3-6 weeks.

Experts in both metallurgy and MIM manufacturing, we know what it takes to make quality, reliable components for the medical, defense, industrial, and sporting goods industries.

EXPERIENCE

- Owner/CEO Ph.D Metallurgist
- 20 Years as Industry Leader
- Wrote the book on MIM*
- In-House P.E. Metallurgist & Material Scientists / Engineers
- Focused on MIM

QUALITY

- Quality First Culture
- Metallurgical Flexibility
- In-Process Control (SPC)
- ISO 13485:2016
- ISO 9001:2015

RELIABILITY

- Proven Scientific Launch Process
- Nimble & Responsive Service
- On-Site Technical Ownership
- Financial Stability
- Design for Manufacturing

INNOVATION

- Technology Pipeline
- Automated Manufacturing
- Feedstock Formulation
